

# Objections to Christianity

Thank you for taking the time to fill this out. In so doing, you are helping me gather data for a short, 6-page paper I'll be writing for a class with Dr. John Lennox\* this summer – part of my continuing education as a pastor. The three most common objections that I find will be articulated in the paper, with a brief response to each. If you'd like to speak to me in person, I'd welcome the opportunity as it would let you more thoroughly clarify your views and help me not to misrepresent them. A place for your contact information is given below. All responses will be used anonymously.

**Please list below up to four of your own objections to Christianity and explain them to the best of your ability.** You may go beyond the space provided if you wish, keeping in mind that the resulting paper will only be 6 pages total, so the data may ultimately be condensed. Copies of the completed paper will be ready by July 10, 2013. **Please respond by May 31.**
